

ASAKCO ENGINEERING COMPANY SINCE 2018

ASAKCO COMPANY PROFILE

Domestication of Oil and Gas Engineering Science Development of Khuzestan Province Engineers Community Job Creation

Introduction

ASAKCO was founded by former ABKARKHE specialists and seasoned personnel in 2014 (officially established in 2018). Our team brings a wealth of experience in offshore oil and gas engineering, with a focus on innovation and cost-effective solutions for even the most challenging environments, including harsh and remote locations.

ASAKCO is dedicated to delivering a wide range of services within the oil and gas industries, both onshore and offshore. Our team comprises skilled engineers and experts with diverse backgrounds, offering extensive experience across various disciplines within the oil and gas field.

This enables us to provide our clients with comprehensive services in process engineering, as well as expertise in other engineering disciplines.

At **ASAKCO**, our primary goal is to promote and facilitate the increased utilization of local resources in the execution of oil and gas projects. We achieve this by fostering partnerships with foreign companies interested in the Iranian oil and gas industry, all while delivering top-tier services to meet the specific requirements of the Iranian petroleum sector.

Salient Features:

Effective and quality activity in the field of engineering studies, including preliminary and detailed studies, is one of the key parameters for success in the complex oil industries. These types of study, allow companies to manage projects with the best methods and with high precision, from the beginning to the end. In this regard, providing quality engineering services using the best solutions, the best equipment and technologies in a suitable period of time with tact in planning and resource management with minimum expenditure will be the main goal of our young group.

Company services:

- Contract Management
- Advanced Basic Engineering
- Detailed Design Engineering
- Selection and Optimization of the Process
- Reconstruction, Optimization and Capacity Increase of Existing Facilities
- Procurement Engineering

Basic Design

- Conceptual Design
- Preparing of As Built Drawings
- Economic Assessment
- Workshop Engineering

Asakco company's fields of activity:

- Wellhead Facilities
- Surface & Subsurface Oil Exploitation
- Desalination and Sweetening of Oil Facilities
- Oil and Gas Pipelines
- Gas and Liquid Gas Factories
- Refinery and Petrochemical Units
- Skid Mounted Installations and Units
- Gas Separation and Pressure Boosting Units
- Oil Pump Houses

ASAKCO ENGINEERING COMPANY

Engineering Department:

ASAKCO Engineering Department includes the following, which work together alongside the project team, in order to proceed the oil & gas projects.

- Process
- Piping and Modelling
- Pipeline
- Mechanic
- Stationary equipment engineering
- Civil and Structure
- Safety
- Architectural
- Electrical
- Control and Instrumentation
- Telecommunication

ASAKCO ENGINEERING COMPANY

Specialized Software Abilities

| Item | Software | Discipline | Application | Version |
|------|------------------|-------------------|----------------------------------|-------------|
| 1 | ASPEN HYSYS | Process | Process Simulation | 10.0 |
| 2 | PRO -II | Process | Process Simulation | V2.0 |
| 3 | ASPEN FLARE NET | Process | Flare Network | 7.1 & 10.0 |
| 4 | PIPESIM | Process | Piping Network Simulation | 2017.2.1071 |
| 5 | OLGA | Process | Pipeline Simulation | 2017.2.1 |
| 6 | INSTRUCALC | Process | Instrumentation Calculation | 9.0.0 |
| 7 | AFT IMPULSE | Process | Water Hammer | 5.0.1131 |
| 8 | AFT FATHOM | Process | Flow Network simulation | 11.2 |
| 9 | PHAST | Safety | Fire Risk Analysis | 6.5.3 |
| 10 | FLARESIM | Safety | Flare Radiation simulation | 6.0 |
| 11 | PV ELITE | Mechanic | Design of Pressure Vessels | 2016 |
| 12 | TANK | Mechanic | Design of Storage Tanks | 2016 V.8 |
| 13 | NOZZLE PRO | Mechanic | Stress Analysis of Nozzles | 9.0.35 |
| 14 | ANSYS | Mechanic | General Stress Analysis | 19.1 |
| 15 | ASPEN B.JAC | Mechanic | Heat Transfer Modeling | 7.1 & 10.0 |
| 16 | HTRI | Mechanic | Heat Transfer Simulation | 6.0 |
| 17 | SAP2000 | Civil & Structure | Analysis -Design of structures | 19.1.1 |
| 18 | ETABS | Civil & Structure | Analysis -Design of buildings | 15.2.2 |
| 19 | SAFE | Civil & Structure | Analysis -Design of Foundations | 12.2.0 |
| 20 | CIVIL 3D | Civil & Structure | Civil Works Design | 2016 |
| 21 | ETAP | Electrical | Analysis -Design | 16.0.0 |
| 22 | DIALUX | Electrical | Lighting Design | 6.1 |
| 23 | CALCULUX | Electrical | Lighting Design | 7.7.0.1 |
| 24 | SAFT | Electrical | Battery Sizing | 2008 |
| 25 | PLS CADD | Electrical | Power Line Transmission Modeling | - |
| 26 | AVEVA PDMS | Piping | Modeling | 12.1 |
| 27 | NAVIS WORKS | Piping | Model Review | 2019 |
| 28 | CAESAR II | Piping | Stress Analysis | 10.00 |
| 29 | ECE | Piping | Material Selection | 5.6 |
| 30 | PREDICT | Piping | Material Selection | 7.1 |
| 31 | CONVAL | Instrument | Control Valve sizing | 10.5.1 |
| 32 | DANIEL | Instrument | Orifice Flow Calculator | 3.0 |
| 33 | EMERSON PRV2SIZE | Instrument | Pressure Relief Valve Sizing | 10 |
| 34 | VALVESTAR | Instrument | Safety Valves Sizing | - |

ASAKCO ENGINEERING COMPANY

Management Abilities:

a. Task Management

- b. Engineering Document Management System (EDMS)
- · Defining the document list for each project.
- · Control the timing of document production and warning in case of delay.
- Determining the internal and external editing of documents automatically in order to prevent the repetition or misplacing of an edit.
- Internal circulation of documents between disciplines before the final transmission.
- Issuance and distribution of documents through the system along with the automatic production of transmission.
- Distribution of documents according to defined responsibilities.
- Examining and commenting on documents through the system.
- Instant calculation of the progress of engineering documents based on the weight of the documents and comparison with program progress.
- Complete archive of documents and transmissions.
- Automatic control and preparation of shopping packages.
- Informing the changes in the attachments of the purchase packages through the purchase and advance work systems.

Office Equipment:

Internet: ADSL at 16 Mbps/s - TD-LTE at 50 Mbps/s

| Description | Brand / Features | Quantity |
|---|---------------------------|----------|
| РС | Lenovo i5/ HP G2 i5 – 8GB | 30 |
| Tablet | Surfac e | 3 |
| Notebook | Lenovo T490 – 16GB | 4 |
| Domain & Mail Servers, Backup Hard Drive | 20 GB Host / 4 TB Backup | 8 |
| Printer | HP LaserJet MFP M436dn | 1 |
| Web Cam | Full HD | 1 |
| Microphone | Noise Cancellation | 1 |
| Speaker | - | 1 |
| Switch | D-Link DGS-1024A | 2 |
| Scanner | HP | 1 |
| Fax Machine | Panasonic | 1 |
| GPS | Garmin | 1 |
